TIMETABLE

| | Monday | Tuesday | Wednesday | Thursday | Friday |
|-----------|---------------------|-------------------|---------------------|-------------------|---------------------|
| Session 1 | Maths | English | Maths | English | HPE |
| Session 2 | Maths Continued | English Continued | Maths Continued | English Continued | HPE |
| Session 3 | History / Geography | Science | History / Geography | Science | Community Activity* |
| Session 4 | Technology | Arts / Commerce | Technology | Bible | Community Continued |

Community Activity - Take some time during the week to do something that you are really passionate about. It could include sports or hobbies or something that is beneficial to your community.

Note -This is a sample timetable. You don't have to follow this model but it does give you some idea of how to schedule your week. For example: In this model we have taken the two lessons for Maths and stretched them out over four sessions in the week. This means that you have more time to understand concepts and work on the homework exercises. If you are struggling with the workload please contact your teacher.
